[Insert the instruction for the prohibited act.]

If you find from the evidence that the State has proved beyond a reasonable doubt each of the elements of entering or remaining in an animal or crop facility with the intent to commit a prohibited act, then you shall find the defendant guilty of entering or remaining in an animal or crop facility with the intent to commit a prohibited act.

If you find that the State has failed to prove beyond a reasonable doubt any one or more of the elements of entering or remaining in an animal or crop facility with the intent to commit a prohibited act, then you cannot find the defendant guilty of entering or remaining in an animal or crop facility with the intent to commit a prohibited act.

[If lesser-included offenses are included, the Court should instruct on those offenses at this point.]
